

### **Old Parks Football Club**

RDB Consulting is the main sponsor of this highly successful and fun soccer club where training and development refers not only to development of a soccer player but also of an individual, teaching both soccer skills and life skills. The club consists of four sub-sections:

- Little League (ages 6 to 11)
- Juniors (ages 12 to 15)
- Seniors (ages 17 and older)
- Ladies

It is our belief that each section in our club is dependent on the other and we encourage the different teams to assist each other wherever possible (senior's assist with the development of the younger players and the younger players support the seniors at their games).

Working closely with neighbouring schools, teams from Cosmos City, Diepsloot townships and our league-governing body (RCLFA), Old Parks Football Club strives to improve our young soccer superstars of tomorrow.

Many of our soccer players have been continued playing soccer for Cosmos, Wits, Chiefs, Swallows and Orlando Pirates. Players have been awarded soccer bursaries in the USA and 3 of our players have been chosen to attend an Academy and participate in the 2007 Arsenal International Soccer Festival.

### **Soccer clinics**

During school holidays Old Parks provides a safe and secure environment whereby morning soccer clinics are conducted to introduce new players and develop existing players. While

the focus is fun and soccer, the development process that is incorporated into the sessions contributes to the success of players.

The players who represent Old Parks are from various cultural backgrounds, working together to form solid relationships and learn co-operation, cementing friendships both on and off the field of play.

### **Tour de France**
